

ERP IMPLEMENTATION AND SUPPORT

No matter what type of business you are in, implementing an ERP is a critical project that must be taken seriously. From concerns about cost and demonstrating ROI, to practical considerations about who will manage the process at your company, ERP implementation efforts require commitment by a project team and support by business leaders to ensure success. There's no getting around the fact that ERP deployment is a major undertaking, but the process doesn't have to be painful. With proper planning and execution, implementing an ERP system should be a smooth process and quickly improve efficiency across your business.

Our Enterprise Resource Planning (ERP) services help our customers in automating the enterprise and speeds up transactions across the organization. These solutions are typically integrated with supply chain, HR and Payroll systems, eProcurement and CRM applications. We combine an integrated solutions approach, experienced project teams, offshore delivery, and strong technology practices in solutions like Microsoft, SAP and Oracle. Our emphasis on best practices like ASAP for SAP R/3 Implementation and AIM for Oracle applications, business process expertise, and commitment to quality, have made us first choice for leading organizations. We believe in supporting our clients in every situation.

Our staff of certified professionals is ready to assist you in the implementation of
